

AYUSH AGARWAL

Vellore Institute of Technology

📞 7888738163 ✉ ayushagarwal120904@gmail.com 🌐 www.linkedin.com/in/ayush-agarwal-09ayu

Education

- | | | |
|--|--|--|
| • Vellore Institute of Technology
B.Tech in Computer Science
Specialization in Data Science | Sep 2022 – Present
Vellore, Tamil Nadu | CGPA
8.99 (till 7 th Sem) |
| • Intermediate Class 12 th | July 2020 – July 2022
Stepping Stones, Chandigarh | 77% |
| • Class 10 th | 2020
The Gurukul, Panchkula, Haryana | 89% |

Experience (Internship)

- | | |
|---|---|
| Panacea Infosec PVT LTD
IT Intern | June 2024 – July 2024
Noida, UP |
|---|---|
- **PCI DSS Knowledge:** Understanding standards and requirements.
 - **Compliance Support:** Assist with documentation, audits, risk assessments, and scans.
 - **Risk Assessment:** Identify and evaluate payment data security risks.
- Technical Skills:-** **Network Security:** Firewalls and segmentation, **Encryption:** Secure data in transit and storage, **Compliance & Auditing:** Monitor activity and automate checks.

Projects

- | | |
|--|-----------------|
| Toxic Comment Classifier Chat Forum Flask, TensorFlow, Keras, LSTM, GloVe, PyMongo, MongoDB | Mar 2025 |
| <ul style="list-style-type: none">• Developed a deep learning-based toxic comment classifier using LSTM and GloVe embeddings, integrated into a Flask-powered Q&A forum.• Automatically detects and blocks toxic questions or replies in real-time, showing user warnings before submission.• Designed and implemented a responsive chat interface and connected it to MongoDB using PyMongo. | |
| Autism Spectrum Disorder (ASD) Prediction Model Python, Scikit-learn, ML, Streamlit | Sep 2024 |
| <ul style="list-style-type: none">• Developed an ML model to predict Autism Spectrum Disorder from behavioral and demographic data.• Preprocessed data (normalization, encoding, outlier handling) and applied supervised algorithms (Logistic Regression, SVM, Decision Trees), evaluating with accuracy, ROC-AUC, and F1-score. | |
| Integrated Algorithmic Trading Framework Backtrader + Binance | Jan 2026 |
| <ul style="list-style-type: none">• Developed an end-to-end algorithmic trading framework integrating Backtrader with Binance API for seamless backtesting and live/paper trading.• Implemented and compared Simple Linear, AR(3), and PyTorch-based Neural Network models; AR(3) achieved best performance with Sharpe Ratio 2.28.• Built a complete trading pipeline including OHLC data processing, SMA/EMA/RSI feature engineering, automated signal generation, and realistic cost-adjusted evaluation (78.98% gross return under 3× leverage). | |
| Telecom Fraud Detection System Tensorflow, Python, Deep Learning, Streamlit | Mar 2026 |
| <ul style="list-style-type: none">• Developed an end-to-end Telecom Fraud Detection system using Deep Learning (TensorFlow) achieving ~83% accuracy for binary classification of fraudulent call patterns.• Performed data preprocessing, feature engineering, and model evaluation (train-test split) to optimize fraud prediction performance.• Built a Streamlit-based real-time ML web application with explainable AI module to generate interpretable fraud detection insights. | |

Certifications

- **GITHUB Link:** <https://github.com/ayushagarwal120904-star>
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Machine Learning, Data Science and Generative AI with Python
- Deep Learning 2025: Neural Networks & AI
- AI Automation in n8n: Build Agents & Voice Agents
- AI Engineer Agentic Track: The Complete Agent & MCP Course

Technical Skills

Languages: C++, Python, C, HTML/CSS, JavaScript, SQL, R

Technologies: Jupyter, MS Visual Studio, R Studio, Office 365 Tools, GitHub

Interpersonal: Communication, Problem-Solving, Networking, Analytical Skills, Strategic Thinking, Teamwork

Coursework: Operating System, Computer Networks, Database Management System, Machine Learning

Solved 950+ DSA problems on various coding platforms (Leetcode, Codechef, etc), demonstrating strong problem-solving, algorithmic thinking, and optimization skill
